Final Copy II

... we don't just rest on them!

When your software repeatedly wins the highest accolades in reviews worldwide, what do you do? Work even harder to stay ahead of course! New Final

Writer Release 2 is the latest result of our intensive development - it's even easier to use, and even more powerful. It's the best there is, and it's designed for those who expect the most from their Amigas But, if you don't have a bard drive system, don't despair, we can still belp At SoftWood we offer you a choice of two Word Processor/Page Publishing trackages But why TWO?

Well, this means that whatever specification Amina you have SoftWood have the perfect solution for your requirements - and always the most powerful possible for your system. Final Copy II is at the beak of what can be achieved when running with turn florouses, it's not possible to offer more without losing performance. Final Writer is the first and

only hard drive compulsory Amiga word processor; the only package that doesn't make compromises to be floppy compatible!

Final Copy II futuradable to Final Writer as your need array) and Final Writer are the only word processors that give you PerfectPrint " - a unique terinane advantage giving siles smooth Industry Standard Adobe^{nse} Type 1 or Nimbus Q scalable outline fants direct to any printer (even dot matrix and ink set), in both landscape and portrast. Others use a restrictive and unnecessary purchic of different fonts with complex driver programs for outputting to sarious printers. The launch of Final Copy II introduced FastDrate To - a special set of structured drawing tools for

atc. directly on the brane.

Final Writer, extending innovation. None as others are just starting to add streilar features, saving they're 'revolutionary', Final Writer extends the innocation further with FastDraw Plas 194 - adding esen faster and more functional options, including a new rotate command. Final Writer Release 2 is again. leading the way out the introduction of TouchTools 74 and Properliser Bartis technologies. These features give the user a definable area at the top of each document urisalese subere up to eight "one-souch" buiton strips can be configured. Each strip consums easily cussomisable sets of functions giving instant access to all the major commands/features - with a simple click of the mouse! There is even a set of buttons allowing "one touch" selections of font style and size plus suriations including Plain, Bold, Balic and Inderline B's we woulder suche proposed too professe, rational and awards from all the leading magazines

Our word necessors on bryand simply producing non

letters and documents, at which they naturally exact, and progress itso a world where "how the whole document looks' is just as important as "what it says". Adminedly, this can be achieved with Desk Ton Publishers - but they're not so easily used as word processors,

especially when a good looking letter needs creating quickly they're far too cumbersome. Rinal Core it offers the perfect

balance between the two evaluements. Ease and speed of use, with total control over the perfect posted presentation.

Complete control over how documents look, now you have is at your finger tips on your Amigat Features include:

FastDraw[®] (on-screen drawits tools for use with the generation of borders, boxes and lines or arrows at any angle). Multiple Newspaper Style snaking columns, PerfectPrint (the unique about to use Post ScriptTM outline fonts on absolutely any printer in either portrait en landscape) and Text Auto Flows around graphic bjects and reported pictures (placed anywhere, scaled or (removed) with the highest const

GAME REVIEWS GAME REVIEWS GAME REVIEWS September is a strange month for the software industry. Everyone starts getting really geared up for the Christmas rush, but seem to forget that there are bags of top-quality software just waiting to be reviewed. Like Bullfrog's Theme Park, Club Soccer The Manager and the superb Universe from Core Design!

FIRST IMPRESSIONS

It's another bumper crop this month as we let the cat out of the bag on some top software, like Gremtin's Littl Divil (Again.)

CROTFAM

There's a whole lots programming going on in Croatia at the moment. Tony Dillon takes a look at some of the hotiest games around.

DREAMWEB Lisa Collins takes a look at Empire's adult adventure and

exclaims 'that's disgusting'. Sex, violence and lost shoes.

UNIVERSE 256 colours on an A500? Alan Dykes casts his expert eye over

Core Design's sequel to Curse Of Enchantia.

86 KID CHAOS It was originally called Kid Victous, but then people realised that this cute platformer from Ocean isn't vicious at all.

90 **VFM**

More budget hi-jinks this month, as Tony Dillon reviews three compilations featuring really old games, with mixed reactions.

VALHALLA SOLUTION

'Goodbye stuck on level one blues, hello level two happiness', as Lisa Tunnah from Vulcan Software might say (if we asked her).

96 She pouts, she wiggles, she smiles and she plays a lot of adventures. That's why she's here to help.

TEAM TALK

Late one night, efter a particularly tough day in the office, the CU Grew decided to compate tailing horrer stories. To be honest, none of them were particularly good but the one thing that did come out that fasteful arening was the fact that, to a man (end woman), your feve megazine team ere a very phobib burney.
